

In the Claims:

Please amend claims 1, 3, 4, and 5 as follows:

86C1/ 1. (Currently Amended) In a portable enclosure having a support element and an enclosure exterior surface, the improvement comprising: ~~a covering removably attachable to said exterior surface~~

a covering removably attachable to said enclosure exterior surface,

said covering bearing a first visible pattern on a first covering surface,

said covering having a second covering surface opposing said first covering

surface, and

said covering adapted to surround and cover said enclosure exterior surface.

2. (Original) The invention of claim 1, wherein said covering is reversible.

3. (Currently Amended) The invention of claim 1, wherein said enclosure exterior surface bears a first visible pattern.

4. (Currently Amended) The invention of claim 1, wherein said enclosure exterior surface comprises a two-sided flexible material removably attached to said support elements.

5. (Currently Amended) The invention of claim 1, wherein said covering bears a first

~~visible pattern on one side, and a second visible pattern on the other side~~ said second covering surface.

6. (Original) A portable enclosure comprising a collapsible frame, a flexible covering surrounding said frame, said flexible covering removably attached to said frame and having an interior surface and an exterior surface, said interior surface bearing a first visible pattern.

7. (Original) The invention of claim 6, further comprising said exterior surface bearing a second visible pattern.

8. (Original) A portable enclosure comprising:

a plurality of frame elements,

a flexible material attached to each of said frame elements thereby creating a plurality of panel elements,

said panel elements connected together to form a perimeter of said enclosure, said flexible material bearing a first visible pattern,

a flexible covering element bearing a second visible pattern, and adapted to surround and cover said panel elements, and

means for removably securing said covering element to said panel elements.
